## Master's degree

One year ago ISTL and [TCM International Institute](#) made an agreement to offer a master's degree to ISTL students who completed their Bachelor of Theology studies at our school.

Currently, 14 students have enrolled for this master's study and they are regularly taking classes to meet the requirements. The students are enjoying their studies very much and it is their prayer to expand their knowledge of the Word of God, so that they can be good followers of Christ,

wherever He is calling them to serve.

### From a Student

Tomor Ajeti is the pastor of the Fitorja ("Victory") church in Tirana. He is also a former ISTL student. Tomor shares his experiences with the Master's classes so far:

*"I started TCMI in 2019 and it was a desire that I had for many years but the possibilities were not available. When we got the*

*news from ISTL that we could pursue a Master's degree with TCMI, I enrolled immediately. The courses, so far, have been excellent and I have gained much from all of them. The study has helped my pastoral ministry immensely. I really would like to say 'Thank You' to all who make this education possible for us in pastoral ministry, because we need it to be more effective in our calling".*

# Practical help

## Earthquake Relief

Vera Molla is a former ISTL student. Along with her husband Aleksandri and their 5 children, she serves the Lord in full time ministry in the city of Lac. Vera is a very active and vivid person. Currently, she is running the "Good Seed" Center, which was set up in 2015 with the aim to help people in need by providing them with social, material and Spiritual needs. Their focus is on people with physical disabilities, developmental disorders, widows, poor families and hopeless children. They offer free physiotherapy and speech therapy for people in need. They also work with widows and children by counselling and supporting them.

An interesting story to share about Vera is what she has been doing since November 26, 2019 when a strong earthquake hit Albania, until

this day. The earthquake (6.4) destroyed the city's public hospital in Lac. Vera offered the "Good Seed" Center to serve as a hospital for the entire city. Not only that, but she and her team were constantly providing food and everything that the homeless people of that area needed. We praise God for true disciples of Jesus, like Vera.

## Epos International

We are excited to announce the start of a partnership with a nonprofit organization in the United States. Epos International is a nonprofit that has a mission to join individuals and organizations together to bring funding and aid to ministries that focus

on church planting, professional and theological education, and social programs. Epos International was founded by a long-time friend of ISTL Albania. Mande Chapman has had a heart for Albania for over ten years, she has been one of our teachers at ISTL and currently serves on the ISTL Board of Directors. We are encouraged and joyful in this continued ministry partnership and opportunity to gain more funding and aid from our friends and supporters in the States. Please take a moment to view their website and if you would be so kind, connect Epos International further with any friends you may have within the States that would like to support the ministry of ISTL.
